

EXPERIENCE A GAME CHANGING SECURITY CULTURE

At Living Security, we make cybersecurity awareness training fun and effective. Our one-of-a-kind program is guaranteed to increase retention of material and reinforce positive security behaviors through innovative tech enabled experiences, such as Cyber Escape Rooms and Gamified Online Training.

WHY LIVING SECURITY

16x

increase in retention from experimental learning

99%

of employees want to take training again

#1

training is the most effective solution for incident prevention

68%

your brain is 68% more engaged when you're having fun

Cyber Escape Room

Cyber Escape Room brings together hands-on, fun learning combined with relevant, comprehensive training to promote cybersecurity awareness that drives results. Scale across the organization with our "Train the Trainer" licensing which allows you to manage, market, host, and measure your own Escape Room experience.

SEE A SNEAK PEEK!

Online Training

Our training platform leverages gamified learning with custom immersive storylines and role-based micro modules to encourage engagement and motivate behavior change. Participants leave armed with valuable tools and techniques to combat cyber threats.
